

New Gate Numbers at Toronto Pearson International

When you travel from Toronto Pearson on/after January 31, 2012, the gate number displayed on your boarding card will look a little different.

Toronto Pearson International Airport (YYZ) will switch to an alpha-numeric gate lounge numbering system, aligning the airport with the way-finding signage found at other major global hubs.

Prior to January 31, gate numbers inside Terminal 1 started with a "1" or a "2" followed by two more numbers. As of January 31, the first number ("1" or "2") will be replaced by a letter that signifies the sector and will be followed by two numbers.

The letters are:

- D for Domestic
- E for International
- F for USA

For example:

Destination	Prior to Jan 31, 2012	As of Jan 31, 2012
Domestic	Gate: 120	Gate: D20
International	Gate: 174	Gate: E74
USA (Transborder)	Gate: 161	Gate: F61
